Notice to Debtors and Creditors.
In County Judge's Court In and for Volusia County State of Florida.
In the Matter of the Estate of Alice P. Christianity, deceased.
Notice is hereby given that the undersigned has duly qualified as administrator of the Estate of Alice P. Christianity, deceased, late of said county, and all creditors, legatees and distributees and all other persons who may have claims or demands against the said estate, will present the same to the undersigned within two years from date, or be forever barred.
H. B. YARBOROUGH,
Administrator of the Estate of Alice P. Christianity.
Dated at Daytona, Florida, this first day of September, A. D. 1906.

DAYTONA AND ITS ATTRACTIONS.
DAYTONA is situated upon the west bank of the Halifax River at its widest expanse and midway between its source at Bulow Bay and its outlet at Mosquito Inlet. It is a latitude of twenty-four miles from St. Augustine and one mile from the Atlantic Ocean, and is acknowledged to be without a rival for beauty among the villages of the South. Its site is upon what is known as high hammock land that was crowned by nature with a most royal growth of majestic forest trees, and among these trees is the town of today with its beautiful cottages and well-graded walks and streets. The result is that all along the wide avenues that intersect the town are lovely live and water oaks, live oaks, many of them draped with graceful festoons of the gray Spanish moss, that overarch the street and walks, and among these are interspersed tall tropical palmettos, cypress-leaved magnolias, fragrant bays and coral-berried holly, and many other varieties, while in many places the wild grass of the trumpet vine and the anemopsis climb and cling among the branches forming shady bowers and adding grace and beauty. The town lies parallel with the Halifax River, and extends for nearly two miles along the shore. This river is the delight of the angler and the yachtsman and forms one of the town's greatest attractions. The main avenues that run parallel with or intersect the river are all 100 feet wide, except Beach street, which is about sixty-five feet, but has a half-mile of open, beautiful water cutting upon its eastern side, where the salt waves ebb and flow and along and across which comes the cooling, invigorating and health-giving breezes from off the wide Atlantic, which temper and render the Halifax climate one of the most perfect in the world. Daytona has many miles of well-graded, macadamized and shelled roads and streets, rendering it the

in design and finish, are being erected, and beautiful homes, the abodes of wealth and culture are multiplying. Seabreeze (City Beautiful) and Goodall are settlements on the Ocean side of the peninsula across the Halifax River from Daytona. At the foot of Ocean Boulevard, Seabreeze, a pier reaches 600 feet across the beach into the swelling surf of the ocean. This pier is a favorite resort of those who delight in the sport of fishing. The surf here abounds in trout, pompano, yellowtail, cavalle, whiting, drum, sheepshead and many other varieties of edible fish. During the fall season the famous sea bass affords royal sport, and it has been no uncommon occurrence to land a thousand pounds of this gamey fish in an afternoon, individuals of them ranging from fifteen to thirty-five pounds in weight. No other pier in the world offers this splendid sport but the Halifax River, only half a mile back of the ocean, is equally famous for its fine fishing, and the varieties that abound in the ocean are present in the river. Hunting and fishing good. Experienced guides and dogs may be had at reasonable prices.

WHEELMAN'S PARADISE
and added to these, but a mile away, are thirty miles of smooth, hard beach, affording an unrivaled course for long-distance cycling and driving or automobile racing. No town of equal size, North or South, numbers so many wheelmen, and cycling is a favorite pastime with the tourists summer and winter.
The Beautiful Cottages
that have been erected during the past years and are being built are rendering Daytona as famous for its fine quality as for its beautiful river, trees and avenues, and they are adding greatly to its attractions.
Not the least of these attractions to those securing homes in the South, and ranking second only to healthfulness and perfection of climate, is the fact that its population is chiefly composed of cultivated and intelligent people, accustomed to the refinements of home and social life. Added to these features are good churches, good public and private schools, stores, hotels, laundry, meat markets, novelty works, an opera house, electric lights for street and house illumination, a good telephone system, ice factory, Lily Water Works, and hot and cold baths, etc., and everything else can be procured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

LOW ROUND TRIP RATES VIA L. & N. R.
The Louisville & Nashville Railway will sell round trip tickets from Jacksonville to points shown on dates indicated; proportionately low rates from other points.

DAYTONA BEACH
lies one mile east of the town. It is approached by a road of good bridges over the river and well-graded avenues, and is the principal summer resort south of St. Augustine. It has more tourists during the summer than all other places south of that city combined, and is also becoming a favorite winter resort. The beach is wide, firm and smooth, by many considered the finest in the world, and the surf bathing is safe and excellent summer and winter. People who have tried Northern and Western summer resorts declare that there are none so perfect as Daytona beach.
Automobile Race Meet.
The Florida East Coast Automobile Association conducts an annual race meet on the beach, which has now a universal reputation as the finest automobile race course in the world. The Daytona-Orlando Beach is hard as macadam, and an ideal stretch of thirty or more miles without a break makes it the natural racing ground for America.
At low tide the beach is bare for 200 feet and neither carriage wheel, bicycle or pedestrian can make a barely visible imprint on the smooth and well-packed sand. It is no uncommon sight to see well-dressed bicyclists speeding with the velocity of the wind before a stiff breeze, or a team of smooth horses, thus affording the most exhilarating sport known to man. Besides these, miles of hard-shelled palm-fringed boulevards bring the lovers of the wheel and vehicles into direct touch with the manifold uses of the broad bridges which span the splendid Halifax River.
The beach from the sandy bluffs to the lowest point at low tide, measures about 500 feet, and the average depth of the surf measures about two feet. A continuous gentle swell rolls in from the ocean from one to two feet in depth under normal conditions, making the beach an attractive and absolutely safe place for sunbathing. Here the infant as well as the gray-haired veteran of many summers can safely enjoy the luxury of a sea bath throughout the larger part of the year while the strong and expert swimmer can venture out further to test his strength and skill in battling with the inexhaustible powers of the mighty ocean.
The Peninsula
lying between river and ocean is one-half mile wide and is being rapidly improved and there are many fine cottages and several good hotels, an opera house, two ocean piers, beach pavilion and a large casino.
A Remarkable Feature
at Daytona has been the yearly improvement in the style and value of the buildings that are being erected for homes. Men of capital of the North and West have become awakened to its advantages for winter residences, and valuable lots are being purchased and costly houses, beautiful
